An Attractive Investment

A \$100 FC investment in 1999 would be worth \$706 today!

- The Corporation's Investment Portfolio has continued to revolve with significant investment repayments. We have continuously stated that our intention was to revolve the portfolio into new investments that reflect our view of recent values and potential changes in market conditions. Further, we have been stating that we would turn the Investment Portfolio, if need be, at lower interest rates to ensure we originate solid investments. The three reductions in the Bank of Canada policy rate in March and the corresponding reduction in Bank Prime has reduced interest rates and has contributed to a decline in the Corporation's interest revenue.
- We continue to monitor the COVID-19 crisis and the resulting economic downturn on the Investment Portfolio and Corporation. One of the most significant impacts to date has been a reduction in the portfolio average interest rate (resulting from the drop in bank prime, decreasing some of our floating rate investments) resulting in a decline in interest income earned by the Corporation. It is difficult to predict movements in the average interest rate going forward as it will depend on the rates available on new investments as they arise.
- There have been no material signs of deterioration in the Investment Portfolio to date. Borrower repayment performance has remained consistent with the pre-COVID-19 performance and no payment deferrals arrangements have been implemented.
- The Corporation's investment underwriting and loan management team have been together since the Corporation went public in 1999 and have worked together since the 1990's real estate recession. This management team has over 23 years of experience of working together, in dealing with risk mitigation, collections, and underwriting. Since going public, management has stuck to its stated policy, that our one objective of "Protecting Shareholders Equity" first. We have always stated our focus is on having a strong balance sheet and we would never grow for the sake of growth. At June 30, 2020, the Corporation's loan arrears are not materially different, from the pre- COVID balances and we have not experienced defaults attributed to the COVID-19 pandemic.
- As we address this market, we are looking for opportunities. We are reinvesting selectively, with the investment policy of holding a hard line on what we feel are margin of safety values, sponsor quality and warranted pricing. There are no assurances on achievable new lending interest rates as the primary focus is on security, not yield. The Mortgage Banker continues to reject a significant number of potential investments that don't meet its investment criteria and risk tolerance. We will continue to be very hands on in managing all aspects of the business.

This presentation may not provide full disclosure of all material facts relating to the securities offered. Investors should read the most recent Annual Report and Quarterly Financial Statements and Management Discussion & Analysis for disclosure of those facts, especially risk factors relating to the securities offered, before making an investment decision. A final base shelf prospectus containing important information relating to the securities described in this presentation has been filed with the securities regulatory authorities in each of the provinces of Canada, other than Quebec.

This presentation contains forward-looking statements within the meaning of applicable securities laws. These statements include, but are not limited to, statements made in this presentation, and other statements concerning the FCMIC’s objectives, its strategies to achieve those objectives, as well as statements with respect to management’s beliefs, plans, estimates, and intentions, and similar statements concerning anticipated future events, results, circumstances, performance or expectations that are not historical facts. Forward-looking statements generally can be identified by the use of forward-looking terminology such as “outlook”, “objective”, “may”, “will”, “would”, “expect”, “intend”, “estimate”, “anticipate”, “believe”, “should”, “plan”, “continue”, or similar expressions suggesting future outcomes or events. Such forward-looking statements reflect management’s current beliefs and are based on information currently available to management. All forward-looking statements in this presentation are qualified by these cautionary statements. These statements are not guarantees of future events or performance and, by their nature, are based on FCMIC’s estimates and assumptions, which are subject to risks and uncertainties, which could cause actual events or results to differ materially from the forward-looking statements contained in this presentation. Those risks and uncertainties include, but are not limited to, those related to: liquidity in the global marketplace associated with current economic conditions, occupancy levels, access to debt and equity capital, interest rates, the relative illiquidity of real property, unexpected costs or liabilities related to acquisitions or dispositions, construction, environmental matters, legal matters, reliance on key personnel, income taxes, the conditions to the transactions not being satisfied resulting in the failure to complete some or all of the proposed transactions described herein, the trading price of the securities of FCMIC, lack of availability of acquisition or disposition opportunities for the Corporation and exposure to economic, real estate and capital market conditions in North America. Material factors or assumptions that were applied in drawing a conclusion or making an estimate set out in the forward-looking information may include, but are not limited to: that the general economy remains stable, interest rates are relatively stable, acquisition/disposition capitalization rates are stable, competition for acquisition or disposition of residential apartments remains intense, and equity and debt markets continue to provide access to capital. These assumptions, although considered reasonable by the Corporation at the time of preparation, may prove to be incorrect. Although the forward-looking information contained in this presentation is based upon what management believes are reasonable assumptions, there can be no assurance that actual results will be consistent with these forward-looking statements.
