1. The Trust

Firm Capital Property Trust (the ''Trust'') is an unincorporated open-ended real estate investment trust established on August 30, 2012 under the laws of the Province of Ontario pursuant to an amended and restated Declaration of Trust dated November 20, 2012. The Trust is a "mutual fund trust" as defined in the Income Tax Act (Canada), but is not a "mutual fund" within the meaning of applicable Canadian securities legislation. The head office and registered office of the Trust is located at 163 Cartwright Avenue, Toronto, Ontario M6A 1V5. These consolidated financial statements were approved by the Board of Trustees on August 12, 2020.

The Trust owns 100% of the outstanding Class A Limited Partnership Units of Firm Capital Property Limited Partnership ("FCPLP"), a limited partnership created under the laws of the Province of Ontario. FCPLP ultimately owns the investment properties through various subsidiaries. The Trust is the reporting issuer trading on the TSX Venture Exchange under the ticker symbol FCD.UN.

2. Summary of Significant Accounting Policies

(a) Statement of Compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard ("IAS") 34 – Interim Financial Reporting as issued by the International Accounting Standards Board ("IASB"). Accordingly, certain information and note disclosures normally included in the consolidated annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") have been omitted or condensed and accordingly, these condensed consolidated interim financial statements should be read in conjunction with the annual financial statements of the Trust as at and for the year ended December 31, 2019. These condensed consolidated interim financial statements have been prepared using the same accounting policies and methods as those used in the audited consolidated annual financial statements for the year ended December 31, 2019 except as outlined below.

(b) Basis of Consolidation

The condensed consolidated interim financial statements comprise the financial statements of the Trust and its subsidiaries. The financial statements of the subsidiaries are prepared for the same reporting periods as the Trust, using consistent accounting policies. All intercompany balances, transactions and unrealized gains and losses arising from intercompany transactions are eliminated on consolidation.

(c) Basis of Presentation, Measurement and Significant Accounting Policies

The condensed consolidated interim financial statements are prepared on a going concern basis and have been presented in Canadian dollars, which is the Trust's functional currency. The condensed consolidated interim financial statements are prepared on the historical cost basis with the exception of investment properties, cash and cash equivalents and the liabilities related to unit-based compensation expense, which are measured at fair value. The accounting policies set out below have been applied consistently to all periods as presented in the audited consolidated financial statements as at December 31, 2019. Standards issued and adopted for the period are described in note 2(g).

(d) Co-Ownership Arrangement

The Trust currently is a co-owner in ten joint arrangements. These arrangements are classified as joint operations because the parties involved have joint control of the assets and joint responsibility of the liabilities relating to the arrangement. As a result, the Trust includes its pro rata share of its assets, liabilities, revenues, expenses and cash flows in these condensed consolidated interim financial statements. Management believes the assets of these joint arrangements are sufficient for the purpose of satisfying the associated obligations. The co-ownership schedule is laid out below:

Investment Properties	Joint Arrangement Interest
Centre Ice Retail Portfolio	70%
Waterloo Industrial Portfolio	70%
Montreal Industrial Portfolio	50%
Edmonton Industrial Portfolio	50%
Ottawa Apartment Complex	50%
Crombie Retail Portfolio	50%
FCR Retail Portfolio	50%
Gateway Retail Portfolio	50%
The Whitby Mall	40%
Thickson Place	40%

Certain Trustees and Officers of the Trust directly and/or indirectly have interests in certain of these Joint Arrangements.

(e) Estimates

The preparation of condensed consolidated interim financial statements requires management to make estimates that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the condensed consolidated interim financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. The critical accounting estimates have been set out in the Trust's audited consolidated financial statements for the year ended December 31, 2019.

(f) Critical Judgments

Critical judgments have been set out in the Trust's audited consolidated financial statements for the year ended December 31, 2019 and accordingly should be read in conjunction with them.

(g) New Changes in Accounting Policies

i. Amendments to IFRS 3, Business Combinations. The IASB published amendments to IFRS 3 in relation to whether a transaction meets the definition of a business combination. The amendments clarify the definition of a business, as well as provide additional illustrative examples, including those relevant to the real estate industry. A significant change in the amendment is the option for an entity to assess whether substantially all of the fair value of the gross assets acquired is concentrated in a single asset or group of similar assets. If such a concentration exists, the transaction is not viewed as an acquisition of a business and no further assessment of the business combination guidance is required. This will be relevant where the value of the acquired entity is concentrated in one property, or a group of similar properties. The amendments are effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 1, 2020, and to asset acquisitions that occur on or after the beginning of that period. Early application is permitted. The Trust adopted the amendments to IFRS 3 on January 1, 2020 and the amendments did not have an impact on the condensed consolidated interim financial statements.

ii. Amendments to Reference to the Conceptual Framework in IFRS Standards. On March 29, 2018 the IASB issued a revised version of its Conceptual Framework for Financial Reporting (the Framework), that underpins IFRS Standards. The IASB also issued Amendments to References to the Conceptual Framework in IFRS Standards to update references in IFRS Standards to previous versions of the Conceptual Framework. Both documents are effective from January 1, 2020 with earlier application permitted. The Trust adopted the amendments in its condensed consolidated interim financial statements for the period beginning on January 1, 2020. The amendments do not have a material impact on the condensed consolidated interim financial statements.

iii. Definition of Material (Amendments to IAS 1 and IAS 8). On October 31, 2018, the IASB refined its definition of material and removed the definition of material omission or misstatements from IAS 8. The amendments are effective for annual periods beginning on or after January 1, 2020. Early adoption is permitted. The definition of material has been aligned across IFRS Standards and the Framework. The amendments provide a definition and explanatory paragraphs in one place. Pursuant to the amendments, information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity. The Trust adopted the amendments to IAS 1 and IAS 8 in its condensed consolidated interim financial statements for the period beginning on January 1, 2020. The amendments do not have a material impact on the condensed consolidated interim financial statements.

Balance, June 30, 2020	$ 328,133,924	$ 5,330,718	$ 103,305,758	$ 19,388,247	$ 456,158,643

For the period ended June 30, 2020, senior management of the Trust valued the Investment Properties using the overall capitalization method and independent third party appraisals. Investment properties are valued on a highest and best use basis. For all of the Trust's investment properties, the current use is considered the best use. Fair value was determined by applying a capitalization rate to stabilized net operating income ("Stabilized NOI"). Stabilized NOI incorporates allowances for vacancy, management fees and structural reserves for tenant inducements and capital expenditures and is capped at a rate deemed appropriate for each investment property. Capitalization rates are based on many factors, including but not limited to the asset location, type, size and quality of the asset and taking into account any available market data at the valuation date.

Properties are typically independently appraised at the time of acquisition or refinancing. When an independent appraisal is obtained, the internal valuation team assesses all major inputs used by the independent valuators in preparing their reports and holds discussions with them on the reasonableness of their assumptions. The reports are then used by the internal valuation team for consideration in preparing the valuations as reported in these consolidated financial statements.

The properties independently appraised each year represent a subset of the property types and geographic distribution of the overall portfolio. For the period ended June 30, 2020, approximately 3% of the portfolio has been independently appraised (31% as at December 31, 2019). A breakdown of the aggregate fair value of investment properties independently appraised each quarter, in accordance with the Trust's policy, is as follows:

	2020			2019	
Number of investment properties	**Fair value at 100%**	**Fair value at Trust's share**	**Number of investment properties**	**Fair value at 100%**	**Fair value at Trust's share**
2	**$ 14,209,000**	**$ 14,209,000**	**15**	**$ 238,630,000**	**$ 141,202,000**

Investment Properties measured at fair value are categorized by level according to the inputs used. The

Trust has classified these inputs as Level 3. With the exception of the acquisition and dispositions of investment properties as well as transfers into assets held for sale as further described in note 4 of these consolidated financial statements, there have been no transfers into or out of Level 3 in the current year. Significant unobservable inputs in Level 3 valuations are as follows:

June 30, 2020	Retail & Commercial	Core Service Provider Office	Industrial	Multi-Residential	Weighted Average
Capitalization Rate Range	4.41% - 7.75%	7.00%	5.54% - 7.00%	5.00%-5.10%	6.17%
Weighted Average Capitalization	6.30%	7.00%	5.91%	5.06%	6.17%

December 31, 2019	Retail & Commercial	Core Service Provider Office	Industrial	Multi-Residential	Weighted Average
Capitalization Rate Range	5.00% - 7.25%	7.00%	5.54% - 7.00%	5.00%-5.30%	6.09%
Weighted Average Capitalization	6.19%	7.00%	5.90%	5.18%	6.09%

The fair value of the Trust's investment properties is sensitive to changes in the significant unobservable inputs. Changes in certain inputs would result in a change to the fair value of the Trust's investment properties as set out in the following table:

Weighted Average			June 30, 2020 Increase/(Decrease) in Valuation
- Capitalization Rate	25 basis point increase	$	(18,002,000)
- Capitalization Rate	25 basis point decrease		19,576,000

Generally, an increase in stabilized NOI will result in an increase to the fair value of an investment property. An increase in the capitalization rate will result in a decrease to the fair value of an investment property. The capitalization rate magnifies the effect of a change in stabilized NOI.

12. Related Party Transactions

Transactions with related parties are in the normal course of business and are recorded at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

iv. Placement Fees: The Trust pays a fee equivalent to 0.25% of the aggregate value of all debt and equity financing arranged by FCRPI.

In addition to the fees outlined above, FCRPI is entitled to reimbursement of all actual expenses incurred in performing its responsibilities under the Asset Management Agreement.

No leasing fees will be paid for relocating existing tenants, rewriting leases or expenditures, including the cost of all permits, materials, labour, contracts, and holding over without a lease unless the area or length of term has increased.

(c) Commercial Leasing Renewal Fees: Renewals of space leased on commercial terms (including lease renewals at the option of the tenant) which are handled exclusively by FCRPI shall be subject to a commission payable to FCPMC of one-half of one percent (0.50%) of the net rental payments for each year of the renewed lease.

For the six months ended June 30, 2020 and June 30, 2019, Property Management Fees were $399,295 and $532,761 and Commercial Leasing Fees were $78,535 and $58,282, respectively.

(c) Lease Agreement

On August 1, 2013, FCPMC entered into a lease agreement with the entity that owns the Montreal

Industrial Portfolio which the Trust accounts for as a joint venture agreement, to lease office space on commercially available terms. For the three and six months ended June 30, 2020, $5,580 and $11,160 ($5,580 and $11,160 for the three and six months ended June 30, 2019) of base rent was paid on this lease.

(d) Co-Ownership Arrangement

The Trust currently is a co-owner in ten joint arrangements. These arrangements are classified as joint operations because the parties involved have joint control of the assets and joint responsibility of the liabilities relating to the arrangement. As a result, the Trust includes its pro rata share of its assets, liabilities, revenues, expenses and cash flows in these consolidated financial statements. Management believes the assets of these joint arrangements are sufficient for the purpose of satisfying the associated obligations. The co-ownership schedule is laid out below:

Investment Properties	Joint Arrangement Interest
Centre Ice Retail Portfolio	70%
Waterloo Industrial Portfolio	70%
Montreal Industrial Portfolio	50%
Edmonton Industrial Portfolio	50%
Ottawa Apartment Complex	50%
Crombie Retail Portfolio	50%
FCR Retail Portfolio	50%
Gateway Retail Portfolio	50%
The Whitby Mall	40%
Thickson Place	40%

Certain Trustees and Officers of the Trust directly and/or indirectly have interests in certain of these Joint Arrangements.

14. Income Taxes

The Trust currently qualifies as a mutual fund trust and a real estate investment trust ("REIT") for Canadian income tax purposes. Under current tax legislation, income distributed annually by the Trust to unitholders is a deduction in the calculation of its taxable income. As the Trust intends to distribute all of its taxable income to its unitholders, the Trust does not record a provision for current Canadian income taxes.

The Tax Act contains legislation affecting the tax treatment of a specified investment flow-through ("SIFT") trust or partnership (the "SIFT Rules"). A SIFT includes a publicly listed or traded partnership or trust, such as an income trust.

Under the SIFT Rules, certain distributions from a SIFT are not deductible in computing a SIFT's taxable income, and a SIFT is subject to tax on such distributions at a rate that is substantially equivalent to the general tax rate applicable to a Canadian corporation. However, distributions paid by a SIFT as returns of capital should generally not be subject to tax.

The SIFT Rules do not apply to a REIT that meets prescribed conditions relating to the nature of its assets and revenue (the "REIT Conditions"). The REIT has reviewed the REIT Conditions and has assessed their interpretation and application to the REIT's assets and revenues. The REIT believes it has met the REIT Conditions throughout the three and six months ended June 30, 2020 and June 30, 2019. As a result, the REIT does not recognize any deferred income tax assets or liabilities for income tax purposes.

15. Key Management Personnel

Key management personnel include all senior management of the Trust employed by FCRPI and FCPMC and Trustees of the Trust. Management salaries are payable by FCRPI under the Asset Management Agreement as reflected in note 12(a).

16. Commitments and Contingencies

For the three and six months ended June 30, 2020 and June 30, 2019, the Trust had no material commitments and contingencies other than those outlined in notes 12(a) and 12(b).

17. Capital Management

The Trust's objectives when managing capital are to safeguard its ability to continue as a going concern and to generate sufficient returns to provide unitholders with stable cash distributions. The Trust's capital currently consists of bank indebtedness, mortgages and unitholders' equity.

The Trust's Declaration of Trust permits the Trust to incur or assume indebtedness, provided that after giving effect to incurring or assuming any indebtedness (as defined in the Declaration of Trust), the amount of such indebtedness of the Trust is not more than 75% of the gross book value of the Trust's total assets. Gross Book Value ("GBV") is defined in the Declaration of Trust as "at any time, the book value of the assets of the Trust and its consolidated subsidiaries, as shown on its then most recent consolidated balance sheet, plus the amount of accumulated depreciation and amortization in respect of such assets (and related intangible assets) shown thereon or in the notes thereto plus the amount of future income tax liability arising out of indirect acquisitions and excluding the amount of any receivable reflecting interest rate subsidies on any debt assumed by the Trust shown thereon or in the notes thereto, or if approved by a majority of the Trustees at any time, the appraised value of the assets of the Trust and its consolidated subsidiaries may be used instead of book value." As at June 30, 2020 and June 30, 2019, the ratio of such indebtedness to gross book value was 51.2% and 54.3%, respectively, which complies with the requirement in the Declaration of Trust and is consistent with the Trust's objectives.

With respect to the bank indebtedness, the Trust must maintain ratios including minimum Unitholders' equity, maximum debt/GBV, minimum interest service and debt service coverage ratios. The Trust monitors these ratios and was in compliance with these requirements throughout the three and six months ended June 30, 2020 and June 30, 2019.

18. Risk Management and Fair Value of Financial Instruments

A. Risk Management:
In the normal course of business, the Trust is exposed to a number of risks that can affect its operating performance. These risks, and the actions taken to manage them, are as follows:

I. Market Risk

Interest Rate Risk:

The Trust is exposed to interest rate risk on its borrowings. It minimizes the risk by restricting debt to 75% of the GBV of the Trust's GBV of its assets. The Trust has its bank indebtedness and two mortgage financings under variable rate terms.

The following table outlines the impact on interest expense of a 100 basis point increase or decrease in interest rates on the Trust's variable rate debt:

Impact on Interest Expense	June 30, 2020	December 31, 2019
Mortgages	112,500	112,500
	$ 112,500	$ 112,500

II. Credit Risk

The Trust's maximum exposure to credit risk is equivalent to the carrying value of accounts receivable.

The Trust is exposed to credit risk as an owner of real estate in that tenants may become unable to pay the contracted rents. Management mitigates this risk by carrying out appropriate credit checks and related due diligence on the significant tenants. The Trust’s properties are diversified across a number of Canadian provinces and numerous tenants. The receivable balance consists largely of tenant receivables and Harmonized Sales Tax and Quebec Sales Tax receivables. These receivable balances are expected to be collected in due course.

As at June 30, 2020, the Trust had one tenant comprising 11.8% of rental revenues (16.0% as at June 30, 2019).

III. Liquidity Risk

Liquidity risk is the risk the Trust will not be able to meet its financial obligations as they come due. The Trust manages liquidity by maintaining adequate cash and by having appropriate credit facilities available. The Trust currently has the ability to access the debt capital markets and is able to receive debt capital as and when required. In addition, the Trust continuously monitors and reviews both actual and forecasted cash flows.

The following are the estimated maturities of the Trust's non-derivative financial liabilities as at March 31, 2020 including bank indebtedness, mortgages, tenant rental deposits, distribution payable and accounts payable and accrued liabilities:

	Less than 1 Year	1 - 2 Years	>2 Years	Total
Mortgages (note 7a)	$ 12,461,963	$ 28,248,541	$ 197,479,747	$ 238,190,252
Tenant Rental Deposits	386,388	179,185	1,142,289	1,707,862
Distribution Payable	1,268,161	-	-	1,268,161
Land Lease Liability (note 7b)	33,399	35,508	214,902	283,809
Accounts Payable and Accrued Liabilities (note 5)	4,721,221	-	-	4,721,221
	$ 18,871,132	$ 28,463,234	$ 198,836,938	$ 246,171,305

IV. COVID-19

The duration and impact of the COVID-19 pandemic is currently unknown with federal and provincial governments providing various stimulus measures to stabilize economic conditions. As of August 12, 2020, the Trust has received approximately 88% of its April – July rents to date, and is actively either collecting the remaining rent or working with tenants who require assistance. However, it is too early to determine if the Trust will be able to maintain its collection efforts in the months ahead.

Capitalization rates used in the valuation of investment properties as of June 30, 2020 are based on current market data available and have been adjusted for our enclosed mall and non-anchored retail portfolio to reflect market uncertainty related to COVID-19. Given the uncertainty around the duration of COVID-19 and the potential negative impact it may have on the real estate industry, it is not possible to predict the impact of capitalization rates across all of our investment properties at this time.

The Trust continues to review its cash flow projections, liquidity and the fair value of its real estate portfolio in these challenging times. Capitalization rates could change materially as additional market data becomes available. As such, significant changes in assumptions concerning rental income, occupancy rates, tenant inducements and future market rents could negatively impact future real estate valuations and the Trust's overall operations as COVID-19 pandemic continues.

B. Fair Value of Financial Instruments:

The Trust uses a three-level hierarchy that reflects the significance of the inputs used in making fair value measurements of financial instruments carried at fair value. Level 1 of the fair value hierarchy uses quoted market prices in active markets for identical assets or liabilities to determine the fair value of assets and liabilities. Level 2 includes valuations using inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. Level 3 valuations are based on input for the asset or liability that are not based on observable market data.

The fair value of the Trust's cash and cash equivalents, restricted cash, accounts receivable, deposits, other assets, distribution payable, tenant rental deposits and accounts payable and accrued liabilities approximates their carrying amounts due to the relatively short periods to maturity of these financial instruments. The carrying value of the Trust's financial instruments is summarized in the following table:

	June 30, 2020		December 31, 2019
	Amortized Cost	FVTPL

I. Fair Value Hierarchy

The fair value of the marketable securities is based on quoted market prices (Level 1). The fair value of the mortgages is estimated based on the present value of future payments, discounted at a yield on a Government of Canada bond with the nearest maturity date to the underlying mortgage, plus an estimated credit spread at the reporting date for a comparable mortgage (Level 2). The estimated fair value of the mortgages is approximately $238.9 million.

The fair value of unit-based compensation relates to unit options granted which are carried at fair value, estimated using the Black-Scholes option pricing model for option valuation (Level 3) as outlined in note 8(j).
