**About The Corporation**

***Where Mortgage Deals Get Done®***

The Corporation, through its mortgage banker, Firm Capital Corporation, is a non-bank lender providing residential and commercial short-term bridge and conventional real estate financing, including construction, mezzanine and equity investments. The Corporation’s investment objective is the preservation of shareholders’ equity, while providing

shareholders with a stable stream of monthly dividends from investments. The Corporation achieves its investment objectives through investments in selected niche markets that are under-served by large lending institutions. Lending activities to date continue to develop a diversified mortgage portfolio, producing a stable return to shareholders. The Corporation is a mortgage investment corporation (MIC) as defined in the Income Tax Act (Canada). Accordingly, the Corporation is not taxed on income provided that its taxable income is paid to its shareholders in the form of dividends within 90 days after December 31 each year. Such dividends are generally treated by shareholders as interest income, so that each shareholder is in the same position as if the mortgage investments made by the Corporation had been made directly by the shareholder. Full reports of the financial results of the Corporation for the year are outlined in the audited financial statements and the related management's discussion and analysis of the Corporation, available on the SEDAR website at [www.sedar.com](http://www.sedar.com). In addition, supplemental information is available on the Corporation's website at [www.firmcapital.com](http://www.firmcapital.com).
