MANAGEMENT DISCUSSION & ANALYSIS

The following management's discussion and analysis ("MD&A") of the financial condition and results of operations of Firm Capital Property Trust ("FCPT" or the "Trust") should be read in conjunction with the Trust's unaudited condensed consolidated financial statements for the three months ended March 31, 2022 and March 31, 2021. This MD&A has been prepared taking into account material transactions and events up to and including May 16, 2022. Additional information about the Trust has been filed with applicable Canadian securities regulatory authorities and is available at www.sedar.com or on our web site at www.firmcapital.com.

Certain information included in this MD&A contains forward-looking statements within the meaning of applicable securities laws including, among others, statements concerning our 2021 objectives and our strategies to achieve those objectives, as well as statements with respect to management's beliefs, estimates, and intentions, and similar statements concerning anticipated future events, results, circumstances, performance or expectations that are not historical facts. Forward-looking statements generally can be identified by the use of forward-looking terminology such as "outlook", "objective", "may", "will", "expect", "intent", "estimate", "anticipate", "believe", "should", "plans" or "continue" or similar expressions suggesting future outcomes or events. Such forward-looking statements reflect management's current beliefs and are based on information currently available to management.

The COVID-19 pandemic which resulted in broad challenges globally has contributed to significant volatility in financial markets and continues to adversely impact global activity. Many jurisdictions have, however, re-opened with social distancing and/or other measures implemented to assist in curtailing the spread of COVID-19, and multiple vaccines have been approved for use. Surges in new cases of COVID-19 and mutated strains of the virus can cause additional quarantines and lockdowns, which could delay any economic recovery. The vaccination program globally is ongoing and its effectiveness remains uncertain. These factors could further materially and adversely affect the Trust's results and financial condition. To help reduce the financial impact on both businesses and consumers, governments initiated a number financial stimulus programs. Now, almost two years since the declaration of COVID-19 pandemic, with vaccinations levels continuing to climb and with infections levels currently declining, government initiatives are now winding down. Although the full extent of the impact of COVID-19 pandemic on the Trust continues to be uncertain, thus far there have been no material signs of deterioration in the Trust's operations. We will continue to monitor the effects and potential consequences of the COVID-19 pandemic.

These statements are not guarantees of future performance and are based on our estimates and assumptions that are subject to risks and uncertainties, including those described below in this MD&A under Risks and Uncertainties, which could cause our actual results to differ materially from the forward-looking statements contained in this MD&A. Such risk factors include, but are not limited to, risks associated with real property ownership, availability of cash flow, general uninsured losses, future property acquisitions, environmental matters, tax related matters, debt financing, unitholder liability, potential conflicts of interest, potential dilution, reliance on key personnel, changes in legislation and changes in the tax treatment of trusts. The Trust cannot assure investors that actual results will be consistent with any forward-looking statements and the Trust assumes no obligation to update or revise such forward-looking statements to reflect actual events or new circumstances. All forward-looking statements contained in this MD&A are qualified by this cautionary statement. Although the forward-looking information contained in this MD&A is based upon what management believes are reasonable assumptions, there can be no assurance that actual results will be consistent with these forward-looking statements.

Except as required by applicable law, the Trust undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

MANAGEMENT DISCUSSION & ANALYSIS

INTRODUCTION

Firm Capital Property Trust (TSX: FCD.UN) is focused on creating long-term value for Unitholders through capital preservation and disciplined investing to achieve stable distributable income. In partnership with management and industry leaders, FCPT's plan is to own as well as co-own a diversified property portfolio of the following real estate asset classes:

- Industrial & Flex Industrial,
- Net Lease Convenience and Stand Alone Retail,
- Multi Residential,
- Core Service Provider / Healthcare Professional Office, and
- Manufactured Home Communities

In addition to stand alone accretive acquisitions, the Trust will make acquisitions, on a co-ownership basis with strong financial partners and will make joint acquisitions and the acquisition of partial interests from existing ownership groups, in a manner that provides liquidity to those selling owners and professional management for those remaining as partners. Firm Capital Realty Partners Inc., through a structure focused on an alignment of interests with the Trust sources, syndicates and manages investments on behalf of the Trust.

The Trust is a "mutual fund trust" as defined in the Tax Act as defined below, but is not a "mutual fund" within the meaning of applicable Canadian securities legislation. The head office and registered office of the Trust is located at 163 Cartwright Avenue, Toronto, Ontario, M6A 1V5. The Trust is the reporting issuer trading on the TSX under the ticker symbol FCD.UN.

Additional information on the Trust and its portfolio is available on the Firm Capital website at www.firmcapital.com or on the SEDAR website at www.sedar.com.

BASIS OF PRESENTATION

The Trust has adopted International Financial Reporting Standards ("**IFRS**"), as issued by the International Accounting Standards Board as its basis of financial reporting. The Trust's reporting currency is the Canadian dollar.

Certain financial information presented in this MD&A reflects certain non-IFRS financial measures, which include Net Operating Income ("**NOI**"), Earnings Before Interest, Taxes, Depreciation & Amortization ("**EBITDA**"), Funds From Operations ("**FFO**") and Adjusted Funds From Operations ("**AFFO**"), AFFO Payout Ratio, Net Operating Income on a cash basis ("**Cash NOI**") and Debt/Gross Book Value ("**GBV**") (each as defined below). These measures are commonly used by real estate investment trusts as useful metrics for measuring performance and/or cash flows, however, they do not have any standardized meaning prescribed by IFRS and are not necessarily comparable to similar measures presented by other real estate investment trusts. The Trust believes that FFO is an important measure to evaluate operating performance, AFFO is an important measure of cash available for distribution and, NOI is an important measure of operating performance. "**GAAP**" means generally accepted accounting principles described by the Chartered Professional Accountants Canada ("**CPA**") Handbook - Accounting, which are applicable as at the date on which any calculation using GAAP is to be made. As a public entity, the Trust applies IFRS as described in Part I of the CPA Handbook - Accounting.

MANAGEMENT DISCUSSION & ANALYSIS

Occupancy rate represents the total square footage leased as a percentage of the total amount of square footage owned. Leased properties consist solely of those units that are occupied by a tenant at the given date.

NOI is a term used by industry analysts, investors, trusts, and management to measure operating performance of Canadian real estate investment trusts. NOI represents rental revenue from properties less repairs and maintenance, insurance, utilities, property management, property taxes, bad debt, and other property operating costs. NOI excludes certain expenses included in the determination of net income such as interest, amortization, corporate overhead and taxes.

Net income (loss) before other income (expenses) is a measure that the Trust uses in order to present the key operations and administration of the Trust, excluding special items. Items that are excluded from this total and are presented in other income include transaction costs, fair value adjustments of investment properties, and gain (loss) on dispositions.

Funds From Operations ("**FFO**") is a term used to evaluate operating performance, but is not indicative of funds available to meet the Trust's cash requirements. The Trust calculates FFO in accordance with the guidelines set out by the Real Property Association of Canada ("**RealPAC**"), as issued in January 2022 for entities adopting IFRS. FFO is defined as net income before fair value gains/losses on real estate properties, gains/losses on the disposition of real estate properties, deferred income taxes, performance fee attributed to gains and certain other non-cash adjustments.

Adjusted Funds from Operations ("**AFFO**") is a term used as a non-IFRS financial measure by most Canadian real estate investment trusts but should not be considered as an alternative to net income, cash flows from operations, or any other measure prescribed under IFRS. Unlike RealPac, who considers AFFO to be a useful measure of net income, the Trust considers AFFO to be a useful measure of cash available for distributions. AFFO is calculated largely in accordance with the guidelines set out by RealPAC and is defined as FFO less adjustments for non-cash items such as straight-line rent, free rent and noncash interest expense as well as normalized capital expenditures, tenant inducements and leasing charges. However, under RealPAC guidance, unit-based compensation expense (recovery) is included as part of AFFO, but the Trust excludes this amount and the Trust includes gains and losses on the sale of real estate properties calculated as gross proceeds less the actual cost of real estate including capitalized additions ("**Gain on Sales**").

FFO Payout Ratio is defined as Distributions Declared divided by FFO. AFFO Payout Ratio is defined as Distributions Declared divided by AFFO.

NOI, EBITDA, FFO, AFFO, FFO Payout Ratio, AFFO Payout Ratio and Debt/GBV should not be construed as alternatives to net income or cash flows from operating activities determined in accordance with IFRS. NOI, FFO and AFFO are not intended to represent operating profits for the period, or from a property, nor should any of these measures be viewed as an alternative to net income, cash flow from operating activities or other measures of financial performance calculated in accordance with IFRS. Readers should be further cautioned that NOI, EBITDA, FFO, AFFO, FFO Payout Ratio, AFFO Payout Ratio and Debt/GBV as calculated by the Trust may not be comparable to similar measures presented by other issuers.

MANAGEMENT DISCUSSION & ANALYSIS

(“**TIs/LCs**”) are defined as Tenant Inducements, Leasing Charges and Capital Expenditures. The Trust bases its calculation of TIs/LCs reserve at an estimated 2.5% of Net Operating Income or NOI, which is senior managements’ best estimate in operating real estate of the type that the Trust owns and operates.

MANAGEMENT DISCUSSION & ANALYSIS

OCCUPANCY

As at March 31, 2022, commercial portfolio occupancy was 95.7% a 20 basis point decrease over the 95.9% reported at December 31, 2021, but in line with the occupancy reported at March 31, 2021.

As at March 31, 2022, multi-residential portfolio occupancy was 95.6%, a 200 basis point increase compared to the 93.6% reported at December 31, 2021 and a 70 basis point decrease compared to the 96.3% occupancy reported at March 31, 2021. The changes in occupancy levels are largely related to the acquisition activity in Edmonton, Alberta and Pointe-Claire, Quebec.

As at March 31, 2022 manufactured homes communities occupancy was 99.5%, a 40 basis point increase compared to the 99.1% occupancy reported at December 31, 2021.

COMMERCIAL NET RENT, MULTI-RESIDENTIAL AND MANUFACTURED HOMES COMMUNITIES AVERAGE MONTHLY RENT

Commercial net rent per occupied square foot, average multi-residential and manufactured homes communities monthly rent per occupied unit for the past five quarters is as follows:

	Mar 31, 2022	Dec 31, 2021	Sept 30, 2021	June 30, 2021	Mar 31, 2021

RESULTS OF OPERATIONS

RENTAL REVENUE

Rental revenue for the three months ended March 31, 2022 was \$13,040,687, a 9% increase over the \$11,954,312 reported for the three months ended December 31, 2021 and a 15% increase over the \$11,337,581 reported for the three months ended March 31, 2021. Rental revenue includes all amounts earned from tenants' lease agreements including rent, operating costs and realty tax recoveries.

MANAGEMENT DISCUSSION & ANALYSIS

	Three Months Ended		
	Mar 31, 2022	Dec 31, 2021	Mar 31, 2021
Base Rent	\$ 9,028,508	\$ 8,469,276	\$ 7,368,294
Operating Cost Recoveries	1,934,654	1,525,742	1,819,504
Tax Recoveries	1,909,063	1,817,448	2,047,459
Straight Line Rent	207,276	166,205	125,837
Free Rent	(38,814)	(24,359)	(23,516)
Rental Revenue	\$ 13,040,687	\$ 11,954,312	\$ 11,337,581

The variance in comparing the three months ended March 31, 2022 over the three months ended December 31, 2021 and March 31, 2021 is largely due to increased base rental income from the Trust's various acquisitions along with the net rent increases as outlined above.

Free rent relates to rent free periods provided to certain new and renewal tenants at the Trust's properties. Under IFRS, the Trust is required to adjust rental revenue by the value of the rent free period and amortize this adjustment over the life of the individual lease as a reduction to income.

PROPERTY OPERATING EXPENSES

Property operating expenses for the three months ended March 31, 2022 were \$4,736,863 a 17% increase in comparison to the \$4,055,521 reported for the three months ended December 31, 2021 and a 10% increase over the \$4,286,493 reported for the three months ended March 31, 2021. Property operating expenses include realty taxes as well as other costs related to maintenance, HVAC, insurance, utilities and property management fees. Property operating expenses consist of the following:

	Three Months Ended		
	Mar 31, 2022	Dec 31, 2021	Mar 31, 2021
Realty Taxes	\$ 2,079,035	\$ 2,205,400	\$ 2,199,379
Property Management	465,911	468,615	426,282
Operating Expenses	2,191,917	1,381,506	1,660,832
Property Operating Expenses	\$ 4,736,863	\$ 4,055,521	\$ 4,286,493

The variance in comparing the three months ended March 31, 2022 over the three months ended December 31, 2021 and March 31, 2021 are primarily due to the impact of the Trust's various acquisitions and seasonality in the multi-residential portfolio.

NET OPERATING INCOME ("NOI")

On an IFRS basis, NOI for the three months ended March 31, 2022 was \$8,303,824, a 5% increase compared to the \$7,898,791 reported for the three months ended December 31, 2021, and a 18% increase in comparison to the \$7,051,088 reported for the three months ended March 31, 2021.

On a cash basis (i.e. excluding straight-line and free rent which are non-cash items) ("**Cash NOI**"), NOI for the three months ended March 31, 2022 was \$8,135,362 a 5% increase compared to the

The variance in comparing the three months ended March 31, 2022 over the three months ended December 31, 2021 and March 31, 2021 are primarily due to the impact of the Trust's various acquisitions and seasonality in the multi-residential portfolio, offset by higher property operating costs.

FINANCE COSTS

Finance costs for the three months ended March 31, 2022 were \$2,539,507, a 2% increase in comparison to the \$2,485,791 reported for the three months ended December 31, 2021 and a 15% increase in comparison to the \$2,208,052 reported for the three months ended March 31, 2021.

Finance Costs	\$ 2,539,507	\$ 2,485,791	\$ 2,208,052

The variance in comparing the three months ended March 31, 2022 compared to the three months ended December 31, 2021 and March 31, 2021 is related to higher mortgage interest costs as a result of acquisitions and either their associated mortgage financings or new mortgage financings as outlined below.

Finance fee amortization relates to fees paid on securing the Facility as defined below on the Trust's various mortgages. Non-cash interest expense relates to the fair value adjustment to interest expense required under IFRS as a result of the assumed mortgages from the Trust's various acquisitions.

The weighted average interest rate of the mortgages as at March 31, 2022 stands at approximately 3.2% (December 31, 2021 – 3.4%).

MANAGEMENT DISCUSSION & ANALYSIS

GENERAL AND ADMINISTRATIVE (“G&A”) EXPENSES

G&A expenses for the three months ended March 31, 2022 were \$1,322,516, a 13% increase in comparison to the \$1,170,671 reported for the three months ended December 31, 2021 and a 21% decrease in comparison to the \$1,664,105 reported for the three months ended March 31, 2021. Public company expenses include trustee fees, transfer agent fees, press releases and print media.

The variance in comparing the three months ended March 31, 2022 over the three months ended December 31, 2021 and March 31, 2021 is largely due to an increase in asset management fees due to the Trust’s various acquisitions.

NET INCOME & COMPREHENSIVE NET INCOME (“NET INCOME”)

Net Income for the three months ended March 31, 2022 was \$5,338,017 in comparison to the \$6,566,305 in net income reported for the three months ended December 31, 2021 and the \$10,159,514 net income reported for the three months ended March 31, 2021.

The variance in comparing the three months ended March 31, 2022 over the three months ended December 31, 2021 and March 31, 2021 is as discussed previously plus the fair market value adjustments of investment properties as outlined below.

FFO AND AFFO

FFO for the three months ended March 31, 2022 was approximately \$4.2 million, a 34% increase over the \$3.1 million reported for the three months ended December 31, 2021, and a 21% increase over the \$3.5 million reported for the three months ended March 31, 2021.

AFFO for the three months ended March 31, 2022 was approximately \$4.0 million, a 4% increase over the \$3.9 million reported for the three months ended December 31, 2021, and an 18% increase over the \$3.4 million reported for the three months ended March 31, 2021.

FFO per Unit was \$0.123 per Unit for the three months ended March 31, 2022 compared to the \$0.092 per Unit reported for the three months ended December 31, 2021 and the \$0.118 per Unit reported for the three months ended March 31, 2021.

AFFO per Unit was \$0.119 for the three months ended March 31, 2022 compared to the \$0.114 per Unit reported for the three months ended December 31, 2021 and the \$0.117 per Unit reported for the three months ended March 31, 2021.

AFFO Payout Ratio was 109% for the three months ended March 31, 2022, compared to the 112% for the three months ended December 31, 2021 and the 109% reported for the three months ended March 31, 2021.

For the three months ended March 31, 2022, the Trust had TIs/LCs and capital expenditures of approximately \$1.8 million (2021 - \$1.1 million).

As the Trust considers AFFO to be a useful measure of cash flow available for distributions, the following table is a reconciliation from IFRS Cash Flows from Operating Activities to FFO and AFFO:

The differences between the add back of FFO and AFFO is the deduction for straight-line rent, free rent, reserves for TIs/LCs, capital expenditures and the non-cash interest expense component for all assumed mortgages, offset by the deduction for unit-based compensation expense. Under RealPAC and the Trust, unit-based compensation expense is deducted for reporting FFO. However, the Trust adds back this expense for the purpose of calculating AFFO.

The variance in comparing AFFO for the three months ended March 31, 2022 over the three months ended December 31, 2021 and March 31, 2021 is largely due to the positive impact from the Trust's acquisitions and net rents, offset by higher operating, interest and G&A expenses.

AFFO is calculated largely in accordance with the guidelines set out by RealPAC and is defined as FFO less adjustments for non-cash items such as straight-line rent, free rent and noncash interest expense as well as normalized capital expenditures, tenant inducements and leasing charges. However, under RealPAC, unit-based compensation expense is deducted for reporting AFFO, but the Trust adds back this expense and includes cash gains on the sale of real estate properties calculated as gross proceeds less the actual cost of real estate including capitalized additions.

DISTRIBUTIONS

For the three months ended March 31, 2022, distributions of \$0.04333 per unit were declared each month commencing in January 2022 through to March 2022, resulting in total distributions declared of \$4,418,065. For the three months ended March 31, 2021, distributions of \$0.0425 per unit were declared each month commencing in January 2021 through to March 2021, resulting in total distributions declared of \$3,770,715.

Since the Trust's inception in Q4/2012, distributions have been raised nine times in nine years and represents a cumulative increase of 48.6% or 4.3% on an annualized basis since the Trust's inception in 2012. For 2021, distributions were approximately 75% a combination of Return of Capital and the non-taxable portion of capital gains (2020 – 100% Return of Capital).

The policy of the Trust is to pay cash distributions on or about the 15th day of each month to Unitholders of record on the last business day of the preceding month. Distributions paid to Unitholders who are non-residents of Canada will be subject to Canadian withholding tax.

The excess/(shortfall) of cash flow from operating activities over distributions and net income and comprehensive income over distributions for the three months ended March 31, 2022, December 31, 2021 and March 31, 2021 are outlined below:

For the three months ended March 31, 2022 and March 31, 2021, the Trust had distributions in excess of cash flows from operating activities. Specifically, distributions were in excess of cash flows from operating activities as a result of the funding of deposits that occurred in the normal course. Had they not been funded, cash flows from operating activities would have been in excess of distributions. Distributions were funded from the Trust's actual cash on hand generated from operations and had no impact on the sustainability of distributions.

Cash and Cash Equivalents, End of Year	\$ 5,291,439	\$ 5,055,736

Cash provided by operating activities decreased for the three months ended March 31, 2022 largely due to changes in working capital.

MANAGEMENT DISCUSSION & ANALYSIS

Cash provided by financing activities increased for the three months ended March 31, 2022 as a result of an increase in new mortgage financings and advances on the credit facilities as a result of the Trust's various acquisitions as outlined below.

Cash utilized by investing activities increased for the three months ended March 31, 2022 due to higher acquisition activity over the same period in 2021.

INVESTMENT PROPERTIES

As at March 31, 2022, the Trust's property portfolio consisted of 73 properties with a fair value of \$626 million, in comparison to the \$563.4 million reported as at December 31, 2021. The variance is largely due to increases in fair value adjustments from changes in NOI, capital expenditures and the Trust's acquisitions. The investment portfolio valuation is allocated by property type as follows:

For the period ended March 31, 2022, senior management of the Trust valued the Investment Properties using the overall capitalization method and independent third party appraisals. Investment properties are valued on a highest and best use basis. For all of the Trust's investment properties, the current use is considered the best use. Fair value was determined by applying a capitalization rate to stabilized net operating income ("Stabilized NOI"). Stabilized NOI incorporates allowances for vacancy, management fees and structural reserves for tenant inducements and capital expenditures and is capped at a rate deemed appropriate for each investment property. Capitalization rates are based on many factors, including but not limited to the asset location, type, size and quality of the asset and taking into account any available market data at the valuation date.

Properties are typically independently appraised at the time of acquisition or refinancing. When an independent appraisal is obtained, the Trust assesses all major inputs used by the independent

MANAGEMENT DISCUSSION & ANALYSIS

valuators in preparing their reports and holds discussions with them on the reasonableness of their assumptions. The reports are then used by the Trust for consideration in preparing the valuations as reported in these consolidated financial statements.

Capitalization rates used in the valuation of investment properties as of March 31, 2022 are based on current market data available and have been adjusted for our enclosed mall and non-anchored retail portfolio to reflect market uncertainty related to COVID-19. Given the uncertainty around the duration of COVID-19 and the potential negative impact it may have on the real estate industry, it is not possible to predict the impact of the capitalization rates in the future across all of our investment properties at this time. Note that the fair value adjustment is net of capital expenditures and straight-line rents.

The Trust continues to review its cash flow projections, liquidity and the fair value of its real estate portfolio in these challenging times. Capitalization rates could change materially as additional market data becomes available. As such, significant changes in assumptions concerning rental income, occupancy rates, tenant inducements and future market rents could negatively impact future real estate valuations and the Trust's overall operations as COVID-19 pandemic continues.

The properties independently appraised each year represent a subset of the property types and geographic distribution of the overall portfolio. For the period from January 1, 2022 to March 31, 2022, no portfolio has been independently appraised. A breakdown of the aggregate fair value of investment properties independently appraised each quarter, in accordance with the Trust's policy, is as follows:

2022				2021		
	Number of investment properties	Fair value at 100%	Fair value at Trust's share	Number of investment properties	Fair value at 100%	Fair value at Trust's share
Q1	-	\$ -	\$ -	3	\$ 61,790,000	\$ 39,753,000
Total	-	-	-	3	\$ 61,790,000	\$ 39,753,000

Investment Properties measured at fair value are categorized by level according to the inputs used. The Trust has classified these inputs as Level 3. With the exception of the acquisition and dispositions of investment properties as further described in note 4 of the condensed consolidated interim financial statements, there have been no transfers into or out of Level 3 in the current year. Significant unobservable inputs in Level 3 valuations are as follows:

MANAGEMENT DISCUSSION & ANALYSIS

Loss On Sale of Investment Properties:

During the year ended December 31, 2021, the Trust completed sales of twelve retail properties from the Centre Ice Retail Portfolio, for gross proceeds of approximately \$31.3 million. The Trust's pro-rata share of the gross proceeds was \$21.9 million. The Trust recognized a loss on sale of \$1.7 million related to transaction costs not previously captured in the fair market value as at December 31, 2020.

For the year ended December 31, 2021, the Trust completed the sale of its 100% owned retail commercial property located in Hanover, Ontario for gross proceeds of approximately \$6.0 million. The Trust recognized a loss on sale of approximately \$0.4 million related to transaction costs not previously captured in the fair market value as at December 31, 2020.

Note Receivable:

As part of one of the dispositions of the Centre Ice Retail Portfolio properties in 2021, the co-tenancy assumed a note receivable from the purchaser for \$1.0 million. Terms are 5% interest only, two year term, fully open for repayment prior to maturity and fully secured against the disposed property. The Trust's portion of the note receivable is \$0.7 million as at March 31, 2022 (\$0.7 million as at December 31, 2021).

CURRENT ASSETS

Current assets as at March 31, 2022, December 31, 2021 and March 31, 2021 consisted of the following:

	Mar 31, 2022	Dec 31, 2021	Mar 31, 2021
Accounts Receivable	\$ 1,556,640	\$ 2,984,658	\$ 3,501,271
Prepaid Expenses, Deposits & Other Assets	8,264,175	3,221,129	3,428,716
Cash & Cash Equivalents	5,291,439	5,895,961	5,055,736
Restricted Cash	346,991	202,548	206,371
Assets Held For Sale	-	-	15,817,200
	\$ 15,459,245	\$ 12,304,295	\$ 28,009,294

Accounts receivable consist mainly of tenant receivables, and Harmonized Sales Tax ("HST") and Quebec Sales Tax ("QST") recoveries from the Canada Revenue Agency and Revenue Quebec, respectively. Prepaid expenses, deposits and other assets consist mainly of prepaid property taxes, insurance, utility deposits, deferred financing costs related to the Facility, acquisition deposits and the capitalization of free rent provided to tenants as required under IFRS. The increase over the prior period is related to higher deposits. Restricted Cash represents realty tax escrows requested by the lender on the Guelph Retail Portfolio mortgage. Assets Held For Sale consists of the fair market value of assets that were previously under contract to be sold as outlined above.

BANK INDEBTEDNESS

Revolving Operating Facility: The Trust has entered into a Revolving Operating Facility (the "Facility") with a Canadian Chartered Bank (the "Bank") fully secured by first charges against certain investment properties. On March 31, 2022, the total amount available under the Facility was \$19.0 million. The interest rate is based on a calculated formula using the Bank's prime lending rate. Amounts drawn under the Facility are due to be repaid at the maturity date on October 31, 2022.

MANAGEMENT DISCUSSION & ANALYSIS

Amounts drawn under the Facility as at March 31, 2022 and December 31, 2021 were \$12,677,143 and \$14,797,896, respectively.

Line of Credit: The Trust has entered into a Line of Credit (the “LOC”) with a Canadian Chartered Bank (the “Bank”) fully secured by first charges against the Merivale Mall Property. On March 31, 2022, the total amount available under the LOC was \$22.0 million. The interest rate is based on a calculated formula using the Bank’s prime lending rate. Amounts drawn under the Facility are due to be repaid at the maturity date on November 30, 2025. Amounts drawn under the LOC as at March 31, 2022 and December 31, 2021 were \$21,952,968 and \$9,999,985, respectively.

Within the Montreal Industrial Portfolio, where the Trust is a 50% co-owner of the joint arrangement, an LOC with a Bank was established. The interest rate is based on a calculated formula using the Bank’s prime lending rate. Amounts drawn under the line attributed to the Trust as at March 31, 2022 was \$0.5 million (2021 – nil) to be repaid at the maturity date of August 15, 2023.

MORTGAGES

As at March 31, 2022, total outstanding mortgages were \$294,716,199 (\$239,912,757 as at December 31, 2021), net of unamortized financing costs of \$714,037 (\$832,014 as at December 31, 2021), offset by a \$334,201 (\$372,387 as at December 31, 2021) mark to market adjustment with a weighted average interest rate of approximately 3.2% (3.3% as at December 31, 2021) and weighted average repayment term of approximately 2.4 years (3.2 years as at December 31, 2021). MANAGEMENT DISCUSSION & ANALYSIS

On April 30, 2021, the Mountview Manufactured Housing Communities was financed with an \$11.3 million first mortgage from a Canadian Chartered Bank. The interest only mortgage carries a 2.5% interest rate and a 1 year term. The Trust's pro rata share of the mortgage is \$5.7 million and matures on April 30, 2022.

On May 3, 2021, the Trust financed a new \$17.0 million mortgage (\$11.9 million Trust's pro-rated share) as part of the acquisition in Edmonton, Alberta as described in note 3 of the consolidated financial statements. The mortgage has a 2.36% interest rate, amortizes and matures on May 1, 2026.

On May 5, 2021, the Trust financed a new \$13.7 million mortgage (\$9.6 million Trust's pro-rated share) as part of the acquisition in Lower Sackville, Nova Scotia as described in note 3 of the consolidated financial statements. The mortgage has a 2.40% interest rate and matures on June 1, 2026.

On September 10, 2021, the Trust financed a new \$7.7 million mortgage for its Hidden Creek Manufactured Housing Communities. The Trust's portion was \$3.9 million. The mortgage has a 3.04% interest rate, amortizes and matures on September 14, 2026.

During the twelve months ended December 31, 2021, the Trust completed sales of twelve retail properties from the Centre Ice Retail Portfolio for gross proceeds of approximately \$31.3 million. The Trust's pro-rata share of gross proceeds was \$21.9 million. The Trust used these proceeds to reduce the mortgage balance on the portfolio encumbering the Centre Ice Portfolio. As such, no amount is owing on the Centre Ice Portfolio.

On January 20, 2022, the Trust closed a \$9.8 million first mortgage with a Canadian Chartered Bank for the three industrial properties located in Woodstock and Stratford, Ontario acquired on December 7, 2021. Terms of the mortgage are a 3.95% interest rate with a 10 year amortization due June 10, 2032;

On February 14, 2022, as part of the \$56.3 million multi-residential acquisition located in Point Claire, Quebec for \$56.3 million, the Trust financed with a new \$39.5 million mortgage with a Canadian Chartered Bank. Terms of the mortgage are a 2.93% interest rate, interest only for one year due February 14, 2023.

On March 15, 2022, the Trust closed an \$8.9 million first mortgage with a Canadian Chartered Bank for the Core Toronto Retail Property located in Toronto, Ontario acquired on September 28, 2021. Terms of the mortgage are a 3.24% interest rate, interest only for the first two years, 28 year amortization due March 15, 2027.

LAND LEASE LIABILITY

On May 9, 2019, as part of the FCR Retail Portfolio the joint arrangement assumed a land lease on a retail property located in Ottawa, Ontario. The terms of the land lease are gross annual payments of \$101,040 per annum that mature on April 1, 2027. The land lease liability is calculated in accordance with IFRS 16, using a present value of the remaining lease payments, discounted using the incremental borrowing rate at May 9, 2019 of 6.13% for the term of the lease. The Trust's pro-rata portion of the lease liability at 50% is as follows:

Utilities, Repairs & Maintenance, Other consist of utility costs, property taxes, repairs and maintenance, GST/HST payables to CRA, QST payables to Revenue Quebec and professional fees. Due to Asset & Property Manager represent amounts payable to Firm Capital Realty Partners Inc. ("FCRPI") and Firm Capital Property Management Corp. ("FCPMC"). Option liabilities relate to the unit option plan as outlined below.

UNIT BASED LIABILITIES

Option Plan

Under the Trust's unit option plan, the aggregate number of unit options reserved for issuance at any given time shall not exceed 10% of the number of outstanding Trust Units. As at March 31, 2022, the Trust has 2,225,000 Trust Unit options issued and outstanding at a fair market value of \$2,745,275 consisting of the following issuances:

On March 26, 2018, the Trust granted 600,000 Trust Unit options at a weighted average exercise price of \$6.25 per Trust Unit. 525,000 unit options fully vested on the date of the grant with the remaining 75,000 vesting at one-third each year for the next three years and expire on March 26, 2023. The balance as at March 31, 2022 was 515,000 Trust unit options.

MANAGEMENT DISCUSSION & ANALYSIS

On November 8, 2018, the Trust granted 60,000 Trust Unit options at a weighted average exercise price of \$6.35 per Trust Unit. The unit options fully vested on the date of grant and expire on November 8, 2023. The balance as at March 31, 2022 was 60,000 Trust unit options.

On August 14, 2019, the Trust granted 1,400,000 Trust Unit options at a weighted average exercise price of \$6.40 per Trust Unit. 1,290,000 unit options fully vested on the date of the grant with the remaining 110,000 vesting at one-third each year for the next three years and expire on August 14, 2024. The balance as at March 31, 2022 was 1,290,000 Trust unit options.

On December 1, 2020, the Trust granted 400,000 Trust Unit options at a weighted average exercise price of \$6.75 per Trust Unit. 360,000 unit options fully vested on the date of the grant with the remaining 40,000 vesting at one-third each year for the next three years and expire on December 1, 2025. The balance as at March 31, 2022 was 350,000 Trust unit options.

On March 15, 2021, the Trust granted 10,000 Trust Unit options at a weighted average exercise price of \$6.75 per Trust Unit. 3,333 unit options fully vest on the date of the grant with the remaining 6,667 vesting over the following 2 years and expire on March 15, 2026. The balance as at March 31, 2022 was 10,000 Trust unit options.

Unit-based compensation related to the aforementioned unit options stands at an expense of \$258,111 for the period ended March 31, 2022 (an expense of \$293,239 for the year ended December 31, 2021). Unit-based compensation was determined using the Black-Scholes option pricing model and based on the following assumptions:

	As at March 31, 2022	As at December 31, 2021
Expected Option Life (Years)	2.1	2.4
Risk Free Interest Rate	2.19%	1.04%
Distribution Yield	6.62%	6.55%
Expected Volatility	20.00%	20.00%

Expected volatility is based in part on the historical volatility of the Trust Units consistent with the expected life of the option. The risk free interest rate of return is the yield on zero-coupon Government of Canada bonds of a term consistent with the expected option life.

The estimated fair value of an option under the Trust's unit option plan at the date of grants were \$0.40, \$0.36, \$0.34 and \$0.16 per unit option for March 26, 2018, November 8, 2018, August 14, 2019 and December 1, 2020 issuances, respectively.

Deferred Trust Units

On August 1, 2018, the Trust adopted a Deferred Trust Unit ("DTU") plan. Under the terms of the plan, any units issued must be issued at a unit price which is at the volume weighted average trading price of the units on the TSXV for the five days trading immediately preceding the date on which DTUs are granted. Distributions equivalents are awarded in respect of the DTU holders on the same basis as unitholders and credited to the DTU holders account as additional DTUs. As at March 31, 2022, the outstanding liability was \$27,325 (\$13,571 as at December 31, 2021).

MANAGEMENT DISCUSSION & ANALYSIS

UNITHOLDERS' EQUITY

Unitholders' equity as at March 31, 2022 was \$296,819,578 and consists of the following:

	Number of Units	Unitholders' Equity
Unitholders' Equity, March 31, 2021	29,389,847	\$ 230,087,253
Options Exercised	513,333	3,133,169

Add: Net Income	-	48,228,380
Less: Distributions	-	(12,596,468)
Unitholders' Equity, December 31, 2021	34,011,117	295,915,326
Issuance of Units from DRIP	163	1,250
Issuance Costs	-	(16,950)
Add: Net Income	-	5,338,017
Less: Distributions	-	(4,418,065)
Unitholders' Equity, March 31, 2022	34,011,280	\$ 296,819,578

- **Options Exercised**

During the year ended December 31, 2021, 553,333 Trust unit options at a weighted average price of \$6.11 per Trust Unit were exercised for gross proceeds of approximately \$3,378,669. No options were exercised in 2020.

- **Public Equity Offering**

On June 8, 2021, the Trust completed a public equity offering of 4,107,800 Trust Units at a price of \$7.00 per Trust Unit for gross proceeds of approximately \$28.8 million (\$27.1 million, net of closing costs).

As at April 12, 2022, there were 34,011,280 Trust Units issued and outstanding.

RELATED PARTY TRANSACTIONS

Transactions with related parties are in the normal course of business and are recorded at the exchange amount, which is the amount of consideration established and agreed to by the related parties, and are measured at fair value.

ASSET MANAGEMENT AGREEMENT

The Trust has entered into an Asset Management Agreement with FCRPI, an entity indirectly related to certain trustees and management of the Trust. The term of the contract is initially ten years and automatically renews for successive five year periods. Details of the Asset Management Agreement are posted on SEDAR (www.SEDAR.com) and in the notes to the financial statements.

On August 12, 2021, the terms of the Asset Management and Acquisition Fees changed. For further information, please refer to the notes to the financial statements.

MANAGEMENT DISCUSSION & ANALYSIS

For the three months ended March 31, 2022 and March 31, 2021, Asset Management Fees were \$874,105 and \$684,562; Acquisition Fees were \$436,125 and \$64,913; and Performance Incentive Fees were \$133,717 and \$669,984, respectively. Asset management fees and acquisition fees have increased due to the increase in portfolio size. The performance fees have decreased based on the unrealized gain or loss on our investment portfolio.

Asset Management and Performance Incentive Fees are recorded in General and Administrative Expenses while Acquisition and Placement Fees are capitalized to Investment Properties, Mortgages and Unitholders' Equity on the Consolidated Balance Sheet.

Unrealized Performance Incentive Fees, pursuant to the Asset Management Agreement with the Asset Manager, are a contingent liability of the Trust in the event of contract termination or asset disposition and represent approximately \$15.3 million as being contingently payable to the Asset Manager. The respective Net Asset Value of the assets of the Trust have been reduced accordingly due to the treatment of the contingent liability.

PROPERTY MANAGEMENT AGREEMENT

The Trust has entered into a Property Management Agreement with FCPMC, an entity indirectly related to certain trustees and management of the Trust. The term of the contract is initially ten years and automatically renews for successive five year periods. Details of the Property Management Agreement are posted on SEDAR (www.SEDAR.com) and in the notes to the financial statements.

For the period ended March 31, 2022 and March 31, 2021, Property Management Fees were \$271,854 and \$211,853 and Commercial Leasing Fees were \$3,101 and \$12,573, respectively.

For the three months ended March 31, 2022, Property Management Fees were higher than the amount reported at March 31, 2021 largely due to the various acquisitions as discussed above.

Property Management Fees are charged monthly. Commercial leasing and renewal fees are charged on a per lease basis.

INCOME TAXES

The Trust is a mutual fund trust and a real estate investment trust (a "**REIT**") pursuant to the Income Tax Act (Canada) (the "**Tax Act**"). Under current tax legislation, a REIT is entitled to deduct distributions of taxable income such that it is not liable to pay income taxes provided that its taxable income is fully distributed to Unitholders each year. The Trust is a REIT if it meets prescribed conditions under the Tax Act relating to the nature of its assets and revenue (the "**REIT Conditions**"). The Trust has reviewed the REIT Conditions and has assessed their interpretation and application.

The Trust intends to qualify as a REIT under the Tax Act and to make distributions not less than the amount necessary to ensure that the Trust will not be liable to pay income taxes. Accordingly, no current or deferred income taxes have been recorded in the consolidated financial statements.

MANAGEMENT DISCUSSION & ANALYSIS

CAPITAL MANAGEMENT

The Trust's objectives when managing capital are to safeguard the ability to continue as a going concern, and to generate sufficient returns to provide unitholders with stable cash distributions. The Trust's capital currently consists of Bank Indebtedness, Mortgages and Unitholders' equity.

The Trust's Declaration of Trust permits the Trust to incur or assume indebtedness, provided that after giving effect to incurring or assuming any indebtedness (as defined in the Declaration of Trust), the amount of such indebtedness of the Trust is not more than 75% of the gross book value of the

Trust's total assets. Gross Book Value ("GBV") is defined in the Declaration of Trust as "at any time, the book value of the assets of the Trust and its consolidated subsidiaries, as shown on its then most recent consolidated balance sheet, plus the amount of accumulated depreciation and amortization in respect of such assets (and related intangible assets) shown thereon or in the notes thereto plus the amount of future income tax liability arising out of indirect acquisitions and excluding the amount of any receivable reflecting interest rate subsidies on any debt assumed by the Trust shown thereon or in the notes thereto, or if approved by a majority of the Trustees at any time, the appraised value of the assets of the Trust and its consolidated subsidiaries may be used instead of book value." As at March 31, 2022 and March 31, 2021, the ratio of such indebtedness to gross book value was 51.2% and 51.2%, respectively, which complies with the requirement in the Declaration of Trust and is consistent with the Trust's objectives.

With respect to the Bank Indebtedness, the Trust must maintain ratios including minimum unitholders' equity, maximum debt/GBV, minimum interest service and debt service coverage ratios. The Trust monitors these ratios and is in compliance with these requirements throughout the period ended March 31, 2022 and March 31, 2021.

CONTRACTUAL OBLIGATIONS

The Trust's contractual obligations over the next few years are as follows:

	Less than 1 Year	1 - 2 Years	>2 Years	Total
Mortgages (note 7a)	\$ 56,455,483	\$ 54,387,007	\$ 184,253,545	\$ 295,096,035

DISTRIBUTION REINVESTMENT PLAN & UNIT PURCHASE PLAN

On February 5, 2013, the Trust announced the commencement of its Distribution Reinvestment Plan ("DRIP") and Unit Purchase Plan (the "UPP").

DISTRIBUTION REINVESTMENT PLAN ("DRIP")

Under the terms of the DRIP, FCPT's Unitholders may elect to automatically reinvest all or a portion of their regular monthly distributions in additional Trust Units, without incurring brokerage fees or commissions.

MANAGEMENT DISCUSSION & ANALYSIS

Units purchased through the DRIP are acquired at the weighted average closing price of Trust Units in the five trading days immediately prior to the distribution payment date. Units purchased through the DRIP will be acquired either in the open market or be issued directly from FCPT's treasury based on a floor price to be set at the discretion of the board of trustees. Currently, there are 257,075 units reserved under the DRIP.

For the three months ended March 31, 2022 and March 31, 2021, 163 and 153 Trust Units were issued, respectively, from treasury for total gross proceeds of \$1,250 and \$1,000, respectively, to Unitholders who elected to receive their distributions as units under the DRIP.

UNIT PURCHASE PLAN ("UPP")

Unitholders who elect to receive Trust Units under the DRIP may also enroll in the Trust's Unit Purchase Plan. The UPP gives each Unitholder who is resident in Canada the right to purchase additional units of the Trust monthly. Under the terms of the UPP, FCPT's Unitholders may purchase a minimum of \$1,000 of Units on each Monthly Purchase Date and maximum purchases of up to \$12,000 per annum. The aggregate number of Units that may be issued may not exceed 2% of the Units of the Trust per annum.

Registered Unitholders may enroll in the DRIP and the UPP by completing a form and submitting to Equity Financial Trust Company at the address set out in the form, or contact the Trust for copies of the forms. Beneficial Unitholders are encouraged to see their broker or other intermediary for enrolment information. The expected level of insider participation by management and trustees of the Trust under the DRIP and the UPP is currently not known. The DRIP and the UPP are subject to certain limitations and restrictions; interested participants are encouraged to review the full text of the DRIP and UPP at www.firmcapital.com.

RESPONSIBILITY OF MANAGEMENT AND THE BOARD OF TRUSTEES

Management is responsible for the information disclosed in this MD&A, and has in place the appropriate information systems, procedures and controls to ensure that the information used internally by management and disclosed externally is materially complete and reliable. In addition, the Trust's Audit Committee and Board of Trustees provide an oversight role with respect to all public financial disclosures by the Trust, and have reviewed and approved this MD&A and the consolidated financial statements as at March 31, 2022 and March 31, 2021.

CONTROLS AND PROCEDURES

The Trust maintains appropriate information systems, procedures and controls to ensure that information disclosed externally is complete, reliable, and timely. The Trust's Chief Executive Officer and Chief Financial Officer evaluated, or caused an evaluation under their direct supervision of, the design and operating effectiveness of the Trust's disclosure controls and procedures (as defined in National Instrument 52-109, Certification of Disclosure in Issuers' Annual and Interim Filings) as at March 31, 2022 and have concluded that such disclosure controls and procedures were appropriately designed and were operating effectively.

The Trust has also established adequate internal controls over financial reporting to provide reasonable assurance regarding the reliability of the Trust's financial reporting and the preparation of the financial statements for external purposes in accordance with IFRS. The Trust's Chief Executive Officer and the Chief Financial Officer assessed, or caused an assessment under their direct supervision, of the design and operating effectiveness of the Trust's internal controls over financial reporting (as defined in National Instrument 52-109, Certification of Disclosure in Issuers' Annual and

MANAGEMENT DISCUSSION & ANALYSIS

Interim Filings) as at March 31, 2022. Based on that assessment, it was determined that the Trust's internal controls over financial reporting were appropriately designed and were operating effectively. In addition, the Trust did not make any changes to the design of the Trust's internal controls over financial reporting during the period ended March 31, 2022 that would have materially affected or would be reasonably likely to materially affect the Trust's internal controls over financial reporting.

It should be noted that a control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues, including instances of fraud, if any, have been detected. These inherent limitations include, among other items: (i) that management's assumptions and judgments could ultimately prove to be incorrect under varying conditions and circumstances; (ii) the impact of any undetected errors; and (iii) controls may be circumvented by the unauthorized acts of individuals, by collusion of two or more people, or by management override. The design of any system of controls is also based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

SIGNIFICANT ACCOUNTING POLICIES

Significant accounting policies applied by the Trust are described in note 2 of the Trust's consolidated financial statements for the year ended December 31, 2021 and accordingly should be read in conjunction with them.

ESTIMATES

The critical accounting estimates have been set out in the Trust's consolidated financial statements for the year ended December 31, 2021 and accordingly should be read in conjunction with them.

CRITICAL JUDGEMENTS

Critical judgments have been set out in the consolidated financial statements for the year ended December 31, 2021 and accordingly should be read in conjunction with them.

SUBSEQUENT EVENTS

- On April 12, 2022, the Trust closed on a 50% interest in a multi-tenant industrial portfolio located in Edmonton, Alberta. The acquisition price for the Trust's portion of the portfolio was \$36.3 million (excluding transaction costs). The acquisition of the Edmonton Industrial Portfolio was financed in part, with a new \$23.7 million first mortgage from a Canadian Chartered Bank. Terms of the mortgage are a 4.41% interest rate, five year term, amortizing due April 12, 2027.
- On May 16, 2022, the Trust declared and approved monthly distributions in the amount of \$0.0433 per Trust Unit for Unitholders of record on July 29, 2022, August 31, 2022, and September 30, 2022, payable on or about August 15, 2022, September 15, 2022 and October 17, 2022, respectively.

RISKS AND UNCERTAINTIES

The Trust is faced with the following ongoing risk factors, among others, that would affect Unitholders' equity and the Trust's ability to generate returns. All real property investments are subject to elements of risk. General economic conditions, local real estate markets, supply and demand for leased premises, competition from other available premises and various other factors affect such

MANAGEMENT DISCUSSION & ANALYSIS

investments. The Trust's properties are located across Canada. As a result, our properties are impacted by factors specifically affecting their respective real estate markets. These factors may differ from those affecting the real estate markets in other regions of Canada.

- ***LIQUIDITY & GENERAL MARKET CONDITIONS***

The Trust faces the risk associated with general market conditions and their potential consequent effects. Current general market conditions may include, among other things, the insolvency of market participants, tightening lending standards and decreased availability of cash, and changes in unemployment levels, retail sales levels, and real estate values along with access to capital. These market conditions may affect occupancy levels and FCPT's ability to obtain credit on favorable terms or to conduct financings through the public market.

- ***REAL PROPERTY OWNERSHIP AND TENANT RISKS***

Real property investments are relatively illiquid. This illiquidity will tend to limit the ability of the Trust to respond to changing economic or investment conditions. If the Trust were to be required to liquidate assets quickly, there is a risk the proceeds realized from such sale would be less than the book value of the assets or less than what could be expected to be realized under normal circumstances. By specializing in certain types of real estate, the Trust is exposed to adverse effects on that segment of the real estate market and does not benefit from a broader diversification of its portfolio by property class.

All real property investments are subject to elements of risk. The value of real property and any improvements thereto depend on the credit and financial stability of tenants and upon the vacancy rates of the properties. The properties generate revenue through rental payments made by the tenants thereof. The ability to rent unleased space in properties will be affected by many factors, including changes in general economic conditions (such as the availability and cost of mortgage funds), local conditions (such as an oversupply of space or a reduction in demand for real estate in the area), government regulations, changing demographics, competition from other available properties, and various other factors. Cash available for distribution will be adversely affected if a significant number of tenants are unable to meet their obligations under their leases or if a significant amount of available space in the properties becomes vacant and cannot be leased on economically favorable lease terms. If properties do not generate revenues sufficient to meet operating expenses, including debt service and capital expenditures, this could have a material adverse effect on the Trust's business, cash flows, financial condition and results of operations and ability to make distributions to holders of Trust Units.

Historical occupancy rates and revenues are not necessarily an accurate prediction of the future occupancy rates for the Trust's properties or revenues to be derived therefrom. Reported estimates of market rent can be seasonal and the significance of any variations from quarter to quarter would materially affect the Trust's annualized estimated gain-to-lease amount. There can be no assurance that upon the expiry or termination of existing leases, the average occupancy rates and revenues will be higher than historical occupancy rates and revenues and it may take a significant amount of time for market rents to be recognized by the

Trust due to internal and external limitations on its ability to charge these new market-based rents in the short term.

- ***COMPETITION***

Many of the sectors in which the Trust operates are highly competitive. The Trust faces competition from many sources, including from other buildings in the immediate vicinity of the properties and the broader geographic areas where the Trust's properties are and will be

MANAGEMENT DISCUSSION & ANALYSIS

located. In addition, overbuilding in the geographic areas where the Trust's properties are located may increase the supply of competing properties and may reduce occupancy rates and rental revenues of the Trust and could have a material adverse effect on the Trust's business, cash flows, financial condition and results of operations and ability to make distributions to holders of Trust Units.

The Trust's ability to make real estate investments in accordance with the Trust's objectives and investment policies depends upon the availability of suitable investments and the general economy and marketplace. Increased competition for acquisitions in the geographies in which the Trust operates from other acquirers of real estate may impact the availability of suitable investments and achievable investment yields for the Trust.

- ***CHANGES IN APPLICABLE LAWS***

The Trust's operations will have to comply with numerous federal, provincial and local laws and regulations, some of which may conflict with one another or be subject to limited judicial or regulatory interpretations. These laws and regulations may include zoning laws, building codes, landlord tenant laws and other laws generally applicable to business operations. Non-compliance with laws could expose the Trust to liability.

Lower revenue growth or significant unanticipated expenditures may result from the Trust's need to comply with changes in applicable laws, including (i) laws imposing environmental remedial requirements and the potential liability for environmental conditions existing on properties or the restrictions on discharges or other conditions, (ii) rent control or rent stabilization laws or other landlord/tenant laws, or (iii) other governmental rules and regulations or enforcement policies affecting the development, use and operation of the Trust's properties, including changes to building codes and fire and life-safety codes.

- ***UNEXPECTED COSTS OR LIABILITIES RELATED TO ACQUISITIONS***

Risks associated with real property acquisitions are that there may be an undisclosed or unknown liability concerning the acquired properties, and the Trust may not be indemnified for some or all of these liabilities. Following an acquisition, the Trust may discover that it has acquired undisclosed liabilities, which may be material. The Trust conducts what it believes to be an appropriate level of investigation in connection with its acquisition of properties and seeks through contract to ensure that risks lie with the appropriate party.

- ***ACCESS TO CAPITAL***

The real estate industry is highly capital intensive. The Trust will require access to capital to maintain its properties, as well as to fund its growth strategy and significant capital expenditures from time to time. There can be no assurance that the Trust will have access to sufficient capital or access to capital on terms favorable to the Trust for future property acquisitions, financing or refinancing of properties, funding operating expenses or other purposes. Further, in certain circumstances, the Trust may not be able to borrow funds due to the limitations set forth in the Declaration of Trust.

In addition, global financial markets have experienced a sharp increase in volatility during recent years. This has been, in part, the result of the re-valuation of assets on the balance

sheets of international financial institutions and related securities. This has contributed to a reduction in liquidity among financial institutions and has reduced the availability of credit to those institutions and to the issuers who borrow from them. While central banks as well as governments continue attempts to restore liquidity to the global economy, no assurance can be given that the combined impact of the significant re-valuations and constraints on the availability of credit will not continue to materially and adversely affect economies around the

MANAGEMENT DISCUSSION & ANALYSIS

world in the near to medium term. These market conditions and unexpected volatility or illiquidity in financial markets may inhibit the Trust's access to long-term financing in the Canadian capital markets. As a result, it is possible that financing which the Trust may require in order to grow and expand its operations, upon the expiry of the term of financing, on refinancing any particular property owned by the Trust or otherwise, may not be available or, if it is available, may not be available on favorable terms to the Trust. Failure by the Trust to access required capital could have a material adverse effect on the Trust's business, cash flows, financial condition and results of operations and ability to make distributions to holders of Trust Units.

- ***INTEREST RATE & DEBT FINANCING RISK***

The Trust will be subject to the risks associated with debt financing. There can be no assurance that the Trust will be able to refinance its existing indebtedness on terms that are as or more favorable to the Trust as the terms of existing indebtedness. The inability to replace financing of debt on maturity would have an adverse impact on the financial condition and results of FCPT.

- ***ENVIRONMENTAL RISK***

Environmental and ecological related policies have become increasingly important in recent periods. Under various federal, provincial and municipal laws, an owner or operator of real property could become liable for the cost of removal or remediation of certain hazardous or toxic substances released on or in its properties or disposed of at other locations. The existence of such a liability can have a negative impact on the value of the underlying real property.

It is our policy to obtain a Phase I environmental audit conducted by a qualified environmental consultant prior to acquiring any additional property, who has the appropriate insurance coverage. In addition, where appropriate, tenant leases generally specify that the tenant will conduct its business in accordance with environmental regulations and be responsible for any liabilities arising out of infractions to such regulations.

- ***LEGAL RISK***

In the normal course of the Trust's operations, whether directly or indirectly, it may become involved in, named as a party to or the subject of, various legal proceedings, including regulatory proceedings, tax proceedings and legal actions relating to personal injuries, property damage, property taxes, land rights, the environment and contract disputes. The outcome with respect to outstanding, pending or future proceedings cannot be predicted with certainty and may be determined in a manner adverse to the Trust and as a result, could have a material adverse effect on the Trust's assets, liabilities, business, financial condition and results of operations. Even if the Trust prevails in any such legal proceeding, the proceedings could be costly and time-consuming and may divert the attention of management and key personnel from the Trust's business operations, which could have a material adverse effect on the Trust's business, cash flows, financial condition and results of operations and ability to make distributions to holders of Trust Units.

- ***LEASE ROLLOVER RISK***

The value of investment properties and the stability of cash flows derived from those properties are dependent upon the level of occupancy and lease rates in those properties. Upon expiry of any lease, there is no assurance that a lease will be renewed on favorable terms, or at all; nor is there any assurance that a tenant can be replaced. A contraction in the Canadian economy would negatively impact demand for space in our properties, consequently increasing the risk that leases expiring in the near term will not be renewed.

- ***INCOME TAX RISK***

MANAGEMENT DISCUSSION & ANALYSIS

On December 22, 2007, the SIFT Rules were enacted. Under the SIFT Rules, certain distributions from a SIFT will no longer be deductible in computing a SIFT's taxable income, and a SIFT will be subject to tax on such distributions at a rate that is substantially equivalent to the general tax rate applicable to a Canadian corporation. However, distributions paid by a SIFT as returns of capital should generally not be subject to the tax.

The SIFT Rules do not apply to a "real estate investment trust" that meets prescribed conditions relating to the nature of its assets and revenue (the "REIT Conditions"). The Trust has reviewed the REIT Conditions and has assessed their interpretation and application to the Trust's assets and liabilities. The Trust believes that it has met the REIT Conditions throughout the relevant periods ended. There can be no assurances, however, that the Trust will continue to be able to satisfy the REIT Conditions in the future such that the Trust will not be subject to the tax imposed by the SIFT Rules.

- ***FIXED COSTS AND INCREASED EXPENSES***

The failure to maintain stable or increasing average monthly rental rates combined with acceptable occupancy levels would likely have a material adverse effect on the Trust's business, cash flows, financial condition and results of operations and ability to make distributions to holders of Trust Units. Certain significant expenditures, including property taxes, maintenance costs, mortgage payments, insurance costs and related charges, must be made throughout the period of ownership of real property regardless of whether a property is producing any income. If the Trust is unable to meet mortgage payments on any property, losses could be sustained as a result of the mortgagee's exercise of its rights of foreclosure or sale.

The Trust is also subject to utility and property tax risk relating to increased costs that the Trust may experience as a result of higher resource prices as well as its exposure to significant increases in property taxes. There is a risk that property taxes may be raised as a result of re-valuations of properties and their adherent tax rates. In some instances, enhancements to properties may result in significant increases in property assessments following a re-valuation. Additionally, utility expenses, mainly consisting of natural gas and electricity service charges, have been subject to considerable price fluctuations over the past several years. Any significant increase in these resource costs that the Trust cannot charge back to the tenant may have a material adverse effect on the Trust's business, cash flows, financial condition and results of operations and ability to make distributions to holders of Trust Units.

The timing and amount of capital expenditures by the Trust will affect the amount of cash available for distributions to holders of Trust Units. Distributions may be reduced, or even eliminated, at times when the Trust deems it necessary to make significant capital or other expenditures.

- ***UNITHOLDER RISK***

There is a risk that FCPT's Unitholders could become subject to liability. The Declaration of Trust provides that no Unitholder or annuitant under a plan of which a Unitholder acts as Trustee or carrier shall be held to have any personal liability as such, and no resort shall be had to, nor shall recourse or satisfaction be sought from, the private property of any Unitholder or annuitant for any liability whatsoever, in tort, contract or otherwise, to any person in connection with the Trust property or the affairs of the Trust, including, without limitation, for satisfaction of any obligation or claim arising out of or in connection with any contract or obligation of the Trust or of the Trustees or any obligation which a Unitholder or annuitant would otherwise have to indemnify a Trustee for any personal liability incurred by the Trustee as such, but rather the assets of the Trust only are intended to be liable and subject to levy or

execution for satisfaction of such liability. Each Unitholder and annuitant under a plan of which a Unitholder acts as Trustee or carrier shall be entitled to be reimbursed out of the assets of the Trust in respect of any payment of a Trust obligation made by such Unitholder or annuitant. The Declaration of Trust further provides that, whenever possible, any written instrument creating an obligation which is or includes the granting by the Trust of a mortgage, and to the extent management of the Trust determines to be practicable, any written instrument which is, in the judgment of management of the Trust, a material obligation, shall contain a provision or be subject to an acknowledgement to the effect that the obligation being created is not personally binding upon, and that resort shall not be had to, nor shall recourse or satisfaction be sought from, the private property of any of the Trustees, Unitholders, annuitants under a plan of which a Unitholder acts as a Trustee or carrier, or Officers, employees or agents of the Trust, but that only property of the Trust or a specific portion thereof shall be bound; the Trust, however, is not required, but shall use all reasonable efforts, to comply with this requirement in respect of obligations assumed by the Trust upon the acquisition of real property.

Certain provinces have legislation relating to Unitholder liability protection, including British Columbia, Alberta, Saskatchewan, Manitoba, Ontario and Québec. To FCPT's knowledge, certain of these statutes have not yet been judicially considered and it is possible that reliance on such statute by a Unitholder could be successfully challenged on jurisdictional or other grounds.

- ***DEPENDENCE ON FCRPI AND FCPMC***

The Trust's earnings and operations are impacted by FCRPI's ability to source appropriate real estate investments that provide sufficient yields for investors and FCPMC to maintain these real estate investments. The Trust has also entered into long-term contracts with FCRPI and FCPMC, as more particularly described in the "Asset Management Agreement" and "Property Management Agreement" both dated November 20, 2012 and updated on August 12, 2021 as posted on SEDAR (www.SEDAR.com). The Trust is exposed to adverse developments in the business and affairs of FCRPI and FCPMC, since the day to day activities of the Trust are run by FCRPI and FCPMC and since all of the Trust's real estate investments are originated by FCRPI.

- ***RETURN RISK***

There is no guarantee as to the return an investment in Trust Units of the Trust will generate.

- ***POTENTIAL CONFLICTS OF INTEREST***

The Trust is subject to various potential conflicts of interest because the Asset Manager and Property Manager are entities indirectly related to certain trustees and management of the Trust. Further, the Trustees and Officers may co-invest in property acquisitions and investments alongside the Trust. In addition, the Trustees and Officers of the Trust may from time to time deal with parties with whom the Trust may be dealing with, or may be seeking investments similar to those desired by the Trust. Certain Trustees and Officers of the Trust are also employed by entities directly and/or indirectly related to the Asset Manager and Property Manager and are involved in varying real estate related activities including, but not limited to acquisitions, divestitures and management of real estate and real estate related debt and equity.

The Declaration of Trust does not restrict Trustees or Officers of the Trust, the Asset Manager, the Property Manager and/or its affiliates from being engaged (directly or indirectly) in real estate and business transactions in which their individual interests are actually, or are perceived to be, in conflict with the interests of the Trust. Accordingly, there can be no guarantee that the Trustees and Officers of the Trust, when acting in a capacity other than a Trustee or Officer of the Trust will act in the best interests of the Trust.

MANAGEMENT DISCUSSION & ANALYSIS

- **RELIANCE ON KEY PERSONNEL AND TRUSTEES**

In assessing the risk of an investment in the Trust Units, potential investors should be aware that they will be relying on the good faith, experience and judgment of the Trustees. Although investments made by the Trust are carefully chosen by the Trustees, there can be no assurance that such investments will earn a positive return in the short or long-term or that losses may not be suffered by the Trust from such investments.

- **DILUTION**

The number of Trust Units the Trust is authorized to issue is unlimited. The Trustees have the discretion to issue additional Trust Units in other circumstances, including under the Unit Option Plan. Any issuance of Trust Units may have a dilutive effect to existing Unitholders.

- **OPERATIONAL RISKS**

Operational risk is the risk that a direct or indirect loss may result from an inadequate or failed technology, from a human process or from external events. The impact of this loss may be financial loss, loss of reputation or legal and regulatory proceedings. Management endeavors to minimize losses in this area by ensuring that effective infrastructure and controls exist. These controls are reviewed and if deemed necessary improvements are implemented.

- **RISK RELATED TO INSURANCE RENEWALS**

Certain events could make it more difficult and expensive to obtain property and casualty insurance, including coverage for catastrophic risks. When the Trust's current and future insurance policies expire, the Trust may encounter difficulty in obtaining or renewing property or casualty insurance on its properties at the same levels of coverage and under similar terms. Such insurance may be more limited and, for catastrophic risks (e.g., earthquake, hurricane, flood and terrorism), may not be generally available to fully cover potential losses. Even if the Trust is able to renew its policies at levels and with limitations consistent with its current policies, the Trust cannot be sure that it will be able to obtain such insurance at premiums that are reasonable. If the Trust is unable to obtain adequate insurance on its properties for certain risks, it could cause the Trust to be in default under specific covenants on certain of its indebtedness or other contractual commitments that it has which require the Trust to maintain adequate insurance on its properties to protect against the risk of loss. If this were to occur, or if the Trust were unable to obtain adequate insurance, and its properties experienced damages that would otherwise have been covered by insurance, it could have a material adverse effect on the Trust's business, cash flows, financial condition and results of operations and ability to make distributions to holders of Trust Units.

- **CO-OWNERSHIP INTEREST IN PROPERTIES**

In certain situations, the Trust may be adversely affected by a default by a co-owner of a property under the terms of a mortgage, lease or other agreement. Although all co-owners' agreements entered into by Trust provide for remedies to Trust in such circumstances, such remedies may not be exercisable in all circumstances, or may be insufficient or delayed, and

may not cure a default in the event that such default by a co-owner is deemed to be a default of Trust.

OUTLOOK

Moving forward, we will continue to monitor and assess the impacts to the economy that affect the performance of our portfolio. Supply chain issues and government stimulus have resulted in the current inflationary environment which is expected to continue as the federal and provincial governments begin to exit the past two years of COVID 19 restrictions. Interest rates have increased quickly across the yield curve with further increases expected in the overnight rate. However, we still continue to see strong demand and increasing rental rates across our Ontario and Quebec industrial

portfolio and continued demand for space across our convenience retail portfolio that has allowed us to produce steady cashflow across those portfolios. Even with the current interest rate environment, mortgage rates are still extremely attractive and in line with our average mortgage rates across the portfolio.

The Trust currently has sufficient liquidity not only to meet our operational needs through 2022 and to fund our current acquisition and development projects. We believe that the Trust is well positioned for growth with our leverage below our target range of 55% to 65%.

Management is always looking to assess and evolve its portfolio of assets. The Trust will focus its near-term acquisition efforts on the industrial and multi-residential sectors across Canada as well as continue to slowly reduce its exposure to its non-core retail assets when opportunities exist to create a more balanced property portfolio demonstrated by the sales and acquisitions completed in 2021. The Trust expects to grow predominately through acquisitions during 2022 with residential intensification efforts beginning to generate income in 2022. As always, we will continue to assess each acquisition to ensure they meet our disciplined investment objectives.
